

33RD ANNUAL  
PACIFIC NW SOFTWARE  
QUALITY  
CONFERENCE  
OCTOBER 12-14, 2015

## Keep the Key Lessons Brewing

Our annual conference this October followed this year's "Brewing Quality" theme very closely - it really was a strong brew of information, discussion, fun and socializing. Even if you were unable to attend the event, you can still have a taste of the 2015 brew. We have lots of ways for you to share the conference experience, from the video archive of presentations to photos and more.

Take a look to see what we brewed at PNSQC 2015! The keynote and invited speaker videos are posted in the [Archives 2015](#).

The new Meet the Speakers, Meet the Challenge lunch was a huge success as teams gathered together to submit an answer to a challenge posed about the flakiness of automated tests. Read the winning answer in the blog post [PNSQC Folks up for a Challenge](#).

One of this year's poster paper presenters conducted a live survey of the conference participants about how Test Automation is used. The eye-opening results of the poster paper survey are posted on the PNSQC blog, [Test Automation](#).

Even though we're all still recovering from the excitement of the 2015 conference, it is never too early to start thinking about next year. PNSQC 2016 will be taking place on October 17-19 in Portland, Oregon, so save the date! You can join the speaker line-up by submitting an abstract. Look for the Call for Presentations to open in January. Thank you for your continuing support!
